“Today’s customers want uniquely designed homes made from durable and low maintenance building materials. James Hardie® products offer a perfect solution.”

John Tee, Architect

We believe a beautiful house is the combination of select materials and smart construction techniques blended to create a stunning aesthetic.

Fibre cement is a robust composite material, engineered to create durable, dependable products. As a result, our wide range of building solutions stay as timeless, strong and weather-resistant as when they were first applied.

**High performance,
inside and out**

James Hardie® products are designed to stay as beautiful, strong and weather resistant as when your project was built. Our secret for everlasting youth? The James Hardie fibre cement formulation: an invention that's allowed us to make the most durable fibre cement products on the market.

As the pioneers of seventh generation fibre cement, our unmatched technological innovation makes our products generations ahead of competitors in performance and appearance, delivering ultimate peace of mind.

**James Hardie,
the pioneers of
seventh generation
fibre cement**

**Standing strong for
years to come**

The superior characteristics of our fibre cement products make them the preferred, low maintenance choice of professional builders, architects and homeowners alike. James Hardie® fibre cement is thinner and lighter-weight, yet stronger and easier to handle than most alternative building materials, ensuring your build moves along faster – with less hold ups and complications.

Feel confident in the staying power of your build: our products are non combustible, water resistant and will never rot or warp.

HardiePlank®

HardiePlank® Weatherboard
Cedar Texture, Light Mist

Introducing HardiePlank®

HardiePlank® Weatherboard
Cedar Texture, open joint Installation in Boothbay Blue

HardiePlank®
'at a glance'

HardiePlank® cladding is a versatile, low maintenance weatherboard that is stronger than the elements. Installation is quick and easy, offering maximum flexibility with options to fit our boards horizontally, vertically, ship-lapped or open jointed. Available in 21 colours and two textures, the product's clean lines and outstanding performance stand the test of time and nature's harshest scrutiny.

"We looked at all the options,
including HardiePlank®, and for us
it was an easy decision; quick to
install, cost effective and beautiful.
It just looks and feels perfect."

Bill Jenkins, homeowner

HardiePlank® Weatherboard
Cedar Texture, Soft Green

"The more people see and hear about James Hardie, the more they fall in love. HardiePlank® is universal in its appeal."

Gary Stevens, Fabulous Fascia Company

HardiePlank® Weatherboard
Cedar Texture, Midnight Black

"This is a sustainable and marvelous substitute for wood. It's pre-coloured and the finish truly looks like high grade wood cladding. I've used this product for years and have been delighted with the results."

Sarah Susanka, Designer

HardiePlank® Weatherboard
Cedar Texture, Monterey Taupe

"Words cannot describe how
HardiePlank® has changed my
home. Our house looks great and
is a lot more maintenance free
- no more painting and scraping."

Jim Cornett, homeowner

HardiePlank® Weatherboard

HardiePanel[®]

HardiePanel[®] Weatherboard
Smooth Texture, bespoke colour

HardiePanel®
‘at a glance’

The robust, non combustible, large format facade board engineered to leave a lasting impression. HardiePanel® cladding is available in a range of 21 colours and a choice of three textures - making it a smart solution for any project.

With clean, crisp lines perfectly suited to large-scale renovations and new builds, our unique ColourPlus™ Technology formulation and 10 year warranty ensure it retains an immaculate appearance for years to come. Alternatively, our PrimePlus™ finish offers endless flexibility to create bespoke colour choices on every design.

Introducing HardiePanel®

HardiePanel® Weatherboard
Smooth Texture, mixed colours

“Choosing to use James Hardie®
facade products was an important
decision for us, we needed
materials that would stand the test
of time.”

Kam MacRory, Berkeley Homes

HardiePanel® Weatherboard
Smooth Texture, Arctic White

“HardiePanel® helped us to deliver our unique architectural vision. A great solution which provided design flexibility with durability.”

Mr Demeulemeestar, Nexity

Smooth Texture, Arctic White

HardieLine[®]

HardieLine[®] Weatherboard
Smooth Texture, Cobble Stone

HardieLinea® Installed horizontally, HardieLinea® premium weatherboard casts stunning deep
‘at a glance’ shadow lines in a selection of 10 colours, delivering the ultimate in both aesthetic
beauty and protection against the elements.

With its range of elegant, contemporary colours and powerful graphic lines,
HardieLinea cladding creates endless possibilities for architects and homeowners
alike. And a factory-applied, ColourPlus™ Technology finish will ensure your facade
remains beautiful no matter what the weather presents. Specifically formulated to
provide a low maintenance durable exterior, the multi-coat baked-on finish supplies
the perfect fade-resistant match for your build.

Introducing HardieLinea®

HardieLinea® Weatherboard
Smooth Texture, Arctic White

"It's such a deep, chunky board, much less fussy than standard weatherboard, and gives a really clean line and smooth finish that looks very substantial."

Homeowner, Anne Kingdon

HardieLinea® Weatherboard
Smooth Texture, Light Mist

“HardieLine® is a beautiful product, with all the artistic freedom of real wood cladding, but without the maintenance issues.”

Nick Mortimer, Architect

James Hardie® Trims

Trim is that final touch that completes your home's design

Metal trims

MetalTrim™ exterior and interior corner trims are manufactured from high-quality coated aluminium and are available in all 21 colours, giving corners a contemporary appearance.

With external corners available for all cladding products, and internal corners available for HardiePlank® and HardiePanel® cladding, you can add a sleek frame to any facade installation.

Metal Trim
Iron Grey

Fibre cement trims

HardieTrim NT3® trim (25 mm) is the perfect choice for a bold design statement to complement your HardiePlank® cladding.

Accent Trim™ exterior trim (38 mm) offers the perfect, ultra-chunky robust trim for HardieLinea® cladding.

Both our fibre cement trims are 3.655 m in length, and available in Arctic White, Midnight Black & Sail Cloth with a choice of 90 mm or 140 mm widths.

ColourPlus™
Technology

HardiePanel® Weatherboard
Smooth Texture, mixed colours

ColourPlus™ Technology Perfected through years of research and development, we created ColourPlus Technology to ensure lasting exterior results on every build.

With a multi-coat, baked-on finish to match your design, the ColourPlus specific formulation is 30% more resistant to UV fade than paint applied on site, minimising maintenance while retaining its timeless, vibrant beauty.

Selected from a palette of classic and contemporary colours, ColourPlus Technology is underpinned by a 10-year warranty which protects against peeling, chipping or cracking.

Arctic White

Timeless, snowy neutral with calming, cool grey undertones.

Sail Cloth

Soft hues of undyed linen infused with subtle pearly warmth.

Woodland Cream

Luscious milky pastel inspired by delicate springtime petals.

Khaki Brown

Elements of soft natural timber meld with gentle, grey-green hues.

Chestnut Brown

Charismatic pigmented brown with deep notes of silky chestnut and beautifully aged leather.

Rustic Brown

Earthy, gold-pigmented bronze imbued with delicious caramel tones.

Cobble Stone

Contemporary dove-grey neutral with golden undertones.

Timber Bark

Intriguingly dark for powerful definition yet imbued with a natural woody softness.

Light Mist

Softly sophisticated, this pale lilac-hued grey evokes classic lines of Kentish beachfront homes.

Boothbay Blue

Gorgeous grey-based blue inspired by enduring seascape shades.

Evening Blue

Muted gunmetal blue comes alive next to a creamy neutral.

Ocean Blue

Flawless coastal blue inspired by Cornwall's sparkling seas and azure skies.

Traditional Red

Warm russet and maple tones bring depth to this autumnal red.

Countrylane Red

Warm, characterful red drawing on the charm of Hampshire country cottages.

Monterey Taupe

Subtle neutral undertones of oyster and seashell converge for a shade of timeless Oxfordshire stone.

Soft Green

Engaging pastel green shot through with tones of greying skies.

Heathered Moss

Warm and compelling, a softly greying green to evoke Highlands country life.

Mountain Sage

Moody golden-green infused with muted hues to catch the light.

Parkside Pine

Striking contemporary green evocative of verdant Nordic forests and lush pastureland.

Iron Grey

Strong statement slate reminiscent of London's ornate wrought ironwork.

Midnight Black

Sleek and velvet dark, a bold modern classic to create maximum impact.

HardieBacker®

HardieBacker® Tile Backerboard

Introducing HardieBacker®

HardieBacker® Tile Backerboard
12mm and 6mm

HardieBacker® Protect your tiles with HardieBacker® tile backerboard, the UK's number one
'at a glance' engineered tile backerboard for walls and floors.

Renowned for its superior strength, HardieBacker board has a robust and dimensionally stable profile, making a perfect flat tiling surface, while a 10-year guarantee provides lasting peace of mind.

The product's unique cement fibre formulation means boards are impervious to water damage, ensuring outstanding performance on every job. Easy to cut thanks to its score and snap system, HardieBacker board can be fitted fast with zero fuss.

"We have peace of mind that the tiles are mounted onto a backerboard specifically designed for wet areas that will not decay even if exposed to water."

Adrian Holt, Ace Kind Ltd
